

signagelive Displayer V

Retail-ready, powerful mid-size LCD displayers for remotely managed Digital Signage applications

The signagelive Displayer V range provides the latest LCD screen technology with a high performance PC, combined with the signagelive player to create an all-in-one solution capable of remote updates over any Internet network.

The Displayer V range comes with Features such as, SXGA LCD high – resolution display, slim optical drive, powerful output speakers and the latest card readers. By combining software, hardware and LCD screen into a single device, the signagelive Displayer V range offers a truly affordable and easy to install

Digital Signage solution. Due to the displayer using the latest in modern designs, the Displayer V can use its tilting stand or it can be used free standing or mounted on the wall. Available in 17" to 19" (standard or hard glass) and also available; 20" to 22" in widescreen with options for touch screens and protective hard glass fronts.
