

signagelive® Displayer X

Retail-ready, small format displayers for remotely managed Digital Signage applications

The signagelive Displayer X range provides the latest LCD screen technology combined with the signagelive Xscale player to create an all-in-one solution capable of remote updates over any Internet connection. By combining software, hardware and an LCD screen into a single device, this displayer is ready for connection to the signagelive web-based Digital Signage platform straight from the box.

The Future of
In-store
Communications

Available in a range of sizes from 4" to 20" with numerous options available to customize the look and function to customer or environmental requirements.
